

# Stage and Walking Pattern

Princess- For the opening, contestants will all be on stage together when the curtain opens. They will walk to front and center stage one at a time to deliver their introduction. Someone will be holding the microphone to ensure proper height for each contestant. Contestants will say their name, hometown and one fun fact about themselves. Please do not include any additional information as we want a consistent theme and timing for each contestant. After saying their introduction, contestants will return to their spot in line. Once all contestants in a division have introduced themselves, each division will step forward together and be dismissed from stage. The next age division will proceed likewise.

This pattern will be the same for both the Casual Wear Outfit and Formal. We will utilize an 'on deck' line-up to help keep the show flowing smoothly. This means that we will send out the next contestant to X #1 once the MC dismisses the prior contestant from X #3. Questions will be asked in formal gown at X #2. To view a complete list of sample questions, please visit <http://www.misskyteenamerica.com/princess> and follow the link at the bottom of the page.

Teen and Junior Teen contestants will follow the same format with the exception of on stage question- which they do not have. They also will learn a brief walking pattern to start the show. This is taught at registration.
